CONSORTIUM JUSTIFICATION

University of Utah
Domestic Entity

KEY PERSONNEL

Sam Burdell, Ph.D., Co-Investigator (1.5 calendar month / year effort), has had extensive previous experience in this rodent model of osteoarthritis. He will assist as needed in training personnel and overseeing the intra-articular injections proposed in this grant, as well as will provide guidance on histology and microCT analysis of the joints after treatment. He will also assist in writing manuscripts resulting from this work. Dr. Burdell is an Assistant Professor in the Department of Orthopaedics at the University of Utah.

Total Costs - (28.2% F&A)

YR 1: \$20,000; YR 2: \$25,000 YR 3: \$22,000; YR 4: \$24,000; YR 5: \$20,000

INSTRUCTIONS

- Provide an estimate of total costs (direct plus Facilities and Administrative) for each year, rounded to the nearest \$1,000.
- List the organization with whom consortium or contractual arrangements have been made.
- List all personnel, including person months and roles on the project.
- No individual salary information should be provided. Fringe rate information is not required.
- Do not list OSCs (Other Significant Contributors are individuals who contribute to the science but are not paid and do not have a time commitment.)
- Do not list any other budget categories such as travel or M&S; list only personnel.
- Indicate whether the collaborating institution is foreign or domestic.
