Option 2: <b>At registration</b> on Thursday morning, when you get your name badge, there will be a signup sheet for tickets: we have 20 bench tickets (sit anywhere in sections 10, 11, or 12).</i></p>

## 🌐 Where to Find Resources

---

All resources (including this document) can be found on the SNoMaN website:  
<https://sites.gatech.edu/snoman/>.

## 🌐 Conduct Statement

---

NSF policy (see [Chapter XI.A.1.g](#)) is to foster harassment-free environments wherever science is conducted, including at NSF-sponsored conferences. For this meeting, we follow the American Association of Geographers' code of conduct and expect all participants to follow what is stipulated in the code. The code of conduct can be found here: <https://www.aag.org/governance/#conduct>. *A printed version can be found at the conference registration tables.*

Please report any violations of the policy or code-of-conduct to Dr. Clio Andris ([clio@gatech.edu](mailto:clio@gatech.edu)) and also to Dr. Gulsah Akar, School Chair, School of City & Regional Planning ([gakar3@gatech.edu](mailto:gakar3@gatech.edu)).

## 🌐 Photography

---

We will be taking pictures throughout the workshop. Some will be posted to social media. If you need to opt out of this, please let one of the organizing team members know.

## 🌐 We encourage all participants to...

---

- Get to know one another and have conversations (this is a great opportunity to strike up potential partnerships!)
- Please help us by taking pictures and posting on social media to spread the word about #spatialnets2023. We appreciate it a lot!
- Consider adding a dataset or submitting paper citations to the data / literature repository.
- Spend some time outside exploring ATL (need suggestions? Ask the organizing team!)

## 🌐 Workshop Best Practices

---

- Familiarize yourself with all the documents, especially those in the [document library](#) on the SNoMaN website - that's where you'll find materials for the workshop.
- Go through the [pre-reading document](#) before the Friday tutorial sessions.
- Bring an extra layer in case it gets cold in the room.
- During the tutorials, pair-up with a neighbor to share and help keep each other on track.

- Ask questions if you get lost and take notes if that may be helpful to you.
- Think about how you can apply the skills you're learning to your own datasets.
- Get ready to share at the end of the workshop (optional).
- If you have trouble reading fine print, please sit in the front of the classroom.

## Thursday Lunch Options

---

*Sorted by walking distance from Tech Square Research Building:*

### **Subway (1 min walk)**

- Sub sandwiches and wraps  
85 5th St NW

### **Umma's House Korean/Japanese (1 min walk)**
